Find out how we're building WA's future

**I'm Zaneta Mascarenhas, Federal Member for Swan.**

I live locally, love this community and am deeply committed to it. I grew up in a **hardworking family** - Dad was a metalworker, Mum a kindy cleaner, and my first job was on the checkout at Woolies. After school, I moved to Perth to study science and engineering at Curtin University. Over 15 years as an **engineer**, I worked on the **mines**, often as one of the few women on site. As your Federal MP, my goal is to build a **fairer, stronger, greener, and kinder** Australia and make a real difference in our diverse Swan community. I believe in listening to locals, championing your voices, and delivering real outcomes. **Whether it's better healthcare, improved infrastructure, or better wages for essential workers, I'm committed to working alongside you for lasting change.**

## ANTHONY ALBANESE AND LABOR.

### Building Western Australia's Future

We've set up our economy for the future, bringing down inflation, getting wages moving, delivering back-to-back surpluses, and creating more than a million new jobs.

### Making Medicare work for all Australians

We're delivering more free GP visits, fully bulkbilled, by making the biggest investment in Medicare in its 40-year history.

### A Future Made in Australia

A Labor Government will continue to back WA jobs by building more things here, training more local workers, and securing a future made in Australia.
